Claims 1-5 are presented for examination.

The amendments and remarks filed on January 25, 2008 have been received and entered.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bressi et al. for the reasons set forth on pages 2-4 of the office action of September 21, 2007.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the prior art teaches the use of certain HDAC inhibitors for the treatment of ocular angiogenesis disorders, such as macular degeneration or diabetic retinopathy. In contrast, the conditions and diseases recited in the instant claims are not angiogenic disorders. The arguments are not well taken. The use of the claimed compound for the treatment of retinopathy would also treat the cellular damage associated with retinopathy. Furthermore, there is no evidence of record to demonstrate that dry and wet AMD are treated differently. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1612

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
